# NINETEENTH REPORT

OF THE

## GENERAL PRISONS BOARD, IRELAND.

---

TO HIS EXCELLENCY GEORGE HENRY,  
EARL CADOGAN, K.G.,

LORD LIEUTENANT GENERAL AND GENERAL GOVERNOR OF IRELAND.

---

General Prisons Board,  
Dublin Castle,  
23<sup>rd</sup> July, 1897.

IAY IT PLEASE YOUR EXCELLENCY,

1. We have the honour, pursuant to statute, to present this our Nineteenth Annual Report on the condition of the prisons and prisoners within our jurisdiction, and with respect to the registration of criminals.

2. The course recently adopted in England, on the recommendation of the Departmental Committee on Prisons, of amalgamating the statistics of the local and convict prisons, has been followed in the tables of the Appendix to this Report. An alteration has also been made in the form of the tables of committals and expenditure in the direction of assimilating them to the corresponding tables in the English Prisons Report.

### I.—LOCAL PRISONS.

3. It will be seen from the following table that the number of committals of criminal prisoners to local prisons during 1896 shows a slight increase as compared with the previous year when the number fell to a lower point than had been reached during any of the other years given in the table.

## COMMITTEES, &amp;c., exclusive of Prisoners Committed under Civil Process

Years.	Number of Commitments.	Daily Average No. of Prisoners.	Proportion of Daily Average to 100,000 of estimated population.	Years.	Number of Commitments.	Daily Average No. of Prisoners.	Proportion of Daily Average to 100,000 of estimated population.

1893-94	35,721	2,699	54				

## Bridewells.

4. The committals to Bridewells, which are not included in the table above, have also been decreasing for many years, and during 1896 numbered 1,036 males and 267 females.

Ballinasloe Bridewell was closed on the 31st January, 1897, thus further reducing the number originally handed over to the Board in 1878, from 95 to 14.

## Conduct of Prisoners.

5. The conduct of the prisoners has been satisfactory, and it is gratifying to notice a gradual decrease in the percentage of prisoners punished during the past few years, as indicated by the following figures:

Year.	No. of Prisoners punished.	Percentage of Prisoners punished to total number of Prisoners.
1891, . . . .	5,967	117
1892, . . . .	4,376	128
1893, . . . .	4,408	116
1894, . . . .	3,702	100
1895, . . . .	2,999	87
1896, . . . .	3,140	86

## Short sentences.

6. The Board have in their last and many previous Annual Reports drawn attention to the great number of short sentences imposed.

During the year 1896 there were 3,494 sentences of imprisonment for four days and under, of which 663 were for a period of one day only.

7. The number of Convicted Juveniles committed to prisons still continues to decrease, as is shown by the following re-  
turn :—

Years.	Under 12 Years of age.		12 to 16 Years of age.		Total.		
	Boys.	Girls.	Boys.	Girls.	Boys.	Girls.	Boys & Girls

Special rules for the treatment of juveniles have during the past year been brought into force in this country. A copy of these rules will be found in the appendix, see page 19.

All juveniles sentenced to one month or upwards are removed under these rules, if males to Mountjoy Prison, if females to Grangegorman Prison.

The Board are glad to be able to state that for many years past, apart from the stigma of imprisonment, no moral or material harm has happened, or can happen, to juveniles in Irish prisons, who are and have been carefully shielded from contamination by association. Satisfactory, and we believe successful, efforts from a reformatory point of view are made with the comparatively few juveniles that are committed, who are under the special care of the Governors, Chaplains, and Schoolmasters. The Prison Officers generally have shown a laudable desire to assist in these good objects as far as possible.

8. The average daily number of local prisoners in custody during the year was 2,335, and the total number of deaths was 6, a death rate of 2.56 per thousand.

Subjoined is a table of mortality among local prisoners for each year during the last seventeen years.

YEAR.	Daily Average Number of Prisoners.	No. of Deaths.	Rate per Thousand.	YEAR.	Daily Average Number of Prisoners.	No. of Deaths.	Rate per Thousand.
1880-1, .	2,620	14	5.34	1890-91, .	2,546	11	4.3
1881-2, .	3,131	15	4.79	1891-2, .	2,906	5	1.7
1882-3, .	3,025	7	2.31	1892-3, .	2,321	11	4.74

1886-7, .	2,643	8	3.03	1896, .	2,335	6	2.56
1887-8, .	2,568	13	5.07				
1888-9, .	2,648	8	3.02				

Of the six deaths, one was the result of acute alcoholism, two of apoplexy, one of serous effusion on the brain, one of pulmonary consumption, and one of suicide. Four out of the six were the consequences of diseases which originated before reception into prison; and, of the other two cases, one was suffering on his admission from the effects of drink.

There were three cases of typhoid fever: the disease was incubating when the prisoners were admitted.

There was no typhus, and, although amongst the general population of Dublin zymotic diseases have been unusually prevalent, diseases of this class in the city prisons have been very few.

The number released on medical grounds has been 62. Of these there were 23 women who were very near their confinement, and 39 others, whose diseases were in 30 cases reported as having originated before reception.

#### Insanity.

9. The number of cases of insanity transferred from the local prisons to asylums was 103, an increase of 28 on the number transferred last year. As one prisoner was transferred twice the actual number of persons is 102.

Of these, 4 were sane while in prison but were found to have been insane when their offences were committed; 80 were insane on admission; 3 were imbeciles; and 4 were described as weak minded or erratic. Of the remaining 11, there are 2 reported as of "fair" mental condition on reception, but with a congenital monomania; and one of them had been previously in an asylum; 2 were "apparently sane" on reception, but one of them had been previously insane. Of the 7 whose mental condition on reception ranges from "fair" to "good," 4 developed symptoms of insanity in periods varying from 11 to 49 days, and the other 3 after longer intervals.

#### Visiting Committees.

10. A Return, similar to that published in previous years, showing the number of visits paid to the several prisons by members of the Visiting Committees during the year 1896, is subjoined.

It was, we regret to say, our duty to call the attention of Government to the failure on the part of the Visiting Committee of one of the local prisons to pay any visit at all for more than a year to the prison to which they had been appointed.

With this exception, the Board desire again to express their acknowledgment of the valuable assistance afforded by the Visiting Committees, and the public service rendered by them in their painstaking efforts in connection with the investigation of cases of indiscipline and misconduct.

During the past year a further extension of the provisions of the Prisons Amendment (Ireland) Act, 1884, as to the appointment of joint Visiting Committees was made and embodied in a new order, dated 22nd May, 1897, which, *inter alia*, provides for the appointment of committees once a year only, i.e., at Summer Assizes, instead of, as formerly, at both Spring and Summer Assizes, except in the case of the Visiting Committees of the Dublin prisons, who are to be appointed in the month of April each year.

11. It has been of late the practice of the Board, acting under Vagrants, the powers conferred on them by the 29th Section of the Act 19 and 20 Vic., c. 68, and the 17th Section of the Act, 40 and 41 Vic., c. 49, to make a deduction of the estimated cost of the prison allowance of food, not exceeding 3½d. per day, in certain cases when a prisoner, committed for begging or vagrancy, has money in possession.

In one such case a female prisoner committed for begging was found to have on her person or in the Bank property to the amount of nearly £250.

\* Including those discharged after forfeiture or revocation of licence.

† In addition to this number there were 115 convicts under detention in the county prisons, and several hundreds in Bermuda and Gibraltar, who were subsequently discharged in Ireland.

17. The conduct of the Convicts has been generally good. There was no case of corporal punishment during the year.

Conduct of  
Convicts.

The following return gives the particulars and percentages of Convicts punished for the last six years:—

Year.	No. of Prisoners punished.	Percentage of Prisoners punished to Total Number of Prisoners.

1896, . . . .	129	20.31

Health of  
Convicts.

18. In the Convict Prisons there was one death, caused by pneumonia. Ten were released on medical grounds, and six were transferred to the Criminal Lunatic Asylum.

### III.—GENERAL.

Prison  
industries.

19. In Table XXIII. of the Appendix will be found the particulars relating to the industries carried on in Local and Convict Prisons. The principal Prison employments, in addition to the work requisite for keeping the prison clean and in good order, are the following:—

*Tailoring.*—All the warders' uniforms and prisoners' clothing are made in the prisons.

*Shoemaking.*—All the warders' boots and prisoners' shoes are made in the prisons.

*Stone-breaking.*—The chief employment for hard labour male prisoners.

*Oakum-picking.*—Now reduced as much as possible, but retained as a cellular employment for prisoners where more suitable work is not obtainable.

*Firewood Cutting.*—The firewood required throughout Ireland by the Board of Public Works is cut in the prisons, and the Prisons Department holds also several contracts for supplies to military barracks.

*Mat-making.*—Affords remunerative and suitable employment in several prisons.

*Washing.*—This forms one of the principal employments for females; but males are in certain prisons also employed. The washing of the Royal Irish Constabulary Depot, Dublin Metropolitan Police, and of certain military barracks is done in the prisons.

*Carpentry and Smithing.*—Most of the requirements of the service under this heading are carried out by prison labour.

*Brush-making.*—All the brushes for the service are made in Mountjoy Prison.

*Baking.*—The bread for the Dublin and Cork Prisons is baked by prison labour.

*Weaving.*—All the frieze and linsey required for the prisoners' garments is made in Mountjoy Prison.

*Sewing and Knitting.*—The prisoners make up all the under-clothing, socks, stockings, sheets, mattresses, &c., required for the service.

*Mail Bag Making.*—Most of the bags for the Irish Postal Service are made by prison labour.

*Agriculture.*—The farm of 34 acres recently acquired at Maryborough Prison is being drained, reclaimed, and tilled by convict labour, and all available ground at the other prisons is cultivated by prison labour.

*Buildings, &c.*—The work of reconstruction at Cork Male Prison continues to afford useful employment for a working party of convicts, averaging in number about 14 during the year, and a working party averaging about 18, has been employed at Maryboro' Prison in building a wall around the prison farm.

Gardening as a prison industry is a success from every point of view, physical, moral, and financial, especially at Maryborough, Belfast, and Tralee Prisons, where its beneficial effects on the prisoners engaged at it are very satisfactory. It lessens the number of prison offences. As it is an eminently suitable form of employment for women, special attention has been devoted to its development at the female prisons at Cork and Grangegorman.

The profit in the Manufacturing Department during the year 1896-7 amounted to £3,042 1s. 10d. This shows a decrease of £287 10s. 3d. as compared with the previous year, which is mainly accounted for by the discontinuance of carpet beating in the prisons for sanitary and other reasons, as mentioned in last year's report.

20. The greater cost per prisoner in the smaller as compared with the larger local prisons is noteworthy, especially in the matter of staff, *e.g.*, the annual charge per prisoner for staff at Wexford, with a daily average of 37 prisoners, is £33 1s. 7d., while at Armagh, with an average of 89 prisoners, it is only £19 14s. 11d., and at Belfast, with an average of 389, it falls to £11 1s., the annual average cost of "maintenance" at the same prisons being £11 1s. 4d., £9 14s. 7d., and £8 17s. 8d., per prisoner, respectively.

21. The Board are glad to report that another Prisoners' Aid Society has been added to the list published in last year's Report, viz., The "Belfast Male Catholic Discharged Prisoners Aid Society," which was certified on 1st August, 1896.

Varying cost  
per prisoner.

Prisoners' Aid  
Societies.

The following are now the existing certified Societies:—

#### DUBLIN:

Roman Catholic Female Prisoners' Aid Society.  
Roman Catholic Male Prisoners' Aid Society.  
Society for the Relief of Poor Protestants (Male and Female)  
discharged from Prison.

#### BELFAST:

Prison Gate Mission for Women (Protestant).  
Prison Gate Mission for Men (Protestant).  
Male Catholic Discharged Prisoners' Aid Society.

#### LIMERICK.

Limerick Prisoners' Aid Society (undenominational).

In November, 1896, the Commissioners of Charitable Donations and Bequests, on the recommendation of the General Prisons Board, arranged that the income from the "Barbara Tuthill" Charity, heretofore administered by the Board, in the absence of a suitable society at Limerick, should, in future, be paid to the new Society.

Much remains to be done in the way of establishment of such societies in connection with the local prisons where they do not at present exist.

22. In several cases permission has during the year been granted to lady visitors to visit female prisoners of their own religion.

Lady Visitors.

## IV.—REGISTRATION OF CRIMINALS.

23. It will be seen from Table XXVI. in the Appendix that the number of habitual criminals and discharged convicts registered in the year 1896, was 167, as compared with 189 in the previous year.

In connection with the new anthropometric system for identification of criminals, a series of rules as regards the measurement and photography of prisoners has been made under the Penal Servitude Act of 1891. A copy of these rules will be found in the appendix, page 115. Steps have also been taken to re-organize the photographic department of the Service, which is under the supervision of an Officer of the Staff at headquarters, who has a special knowledge of photography. An allowance has been sanctioned by the Treasury for the taking of photographs, which will afford a stimulus to the officers employed at this work.

The particulars of habitual criminals and convicts released from prison are now published twice a week for the information of the police, in addition to being afterwards published in a yearly volume.

## V.—DEPARTMENTAL.

24. Mr. A. J. Hamilton-Smythe, M. Inst. C.E., was, we regret to state, obliged, on the grounds of ill-health, to relinquish his appointment as Engineering Inspector, and has been succeeded by Mr. Max S. Green, A.M.I.C.E., who was appointed to the post by Your Excellency.

## VI.—APPENDIX.

25. We beg to refer to the Appendix for Copies of Circulars Tabular Returns, and Official Reports.

CIRCULARS AND CIRCULAR MEMORANDA.

Circular No. 448.

General Prisons Board, Dublin Castle,  
13th April, 1896.

The Governors (or other Officers in charge) of H.M. Prisons.

The Governor may allow a prison officer to write a letter, memorial, or other statement, on a prisoner's behalf, at the prisoner's request, if satisfied that the prisoner is unable to do so.

Either the Governor, Deputy-Governor, or the Chief Warder should be present at the writing of any such statement, and both he and the writer should sign their names at foot of the document, as witnesses that the statement was correctly taken down and read to the prisoner, and that the prisoner affixed his mark thereto (4,311).

By order,

S. H. DOUGLAS, Secretary.

Circular No. 450.

General Prisons Board, Dublin Castle,  
22nd April, 1896.

To the Governors (or other Officers in charge) of H.M. Prisons.

I am instructed by the General Prisons Board to inform you that Circular No. 96, of 16th November, 1882, is cancelled, and to direct that in future, when prisoners are transferred from one prison to another, they shall not be required to carry their private clothes between the Prisons and the Railway Stations; but that, in cases where the prisoners are marched, the Governor shall arrange with the Police for the hiring of a car for the purpose (4,593).

By order,

S. H. DOUGLAS, Secretary.

Circular No. 451.

General Prisons Board, Dublin Castle,  
31st July, 1896.

To the Governors of H.M. Prisons.

Referring to memo. of 29th January, 1886, on the subject of Lodging Allowances for married officers in the Irish Prisons Service whose families cannot be accommodated with Prison Quarters, the General Prisons Board have pleasure in announcing that, on their recommendation, the Lords Commissioners of Her Majesty's Treasury have decided that, in the case of officers living outside the prison, the present Lodging Allowances may, for the future, be considered as paid in lieu of Quarters only, and that a further annual sum may be paid as a cash allowance in lieu of Fuel and Light, and their Lordships have fixed this allowance:—

For Principal Warders and Clerks at	£8 per annum.
For Warders	at £5 per annum.

The following will, therefore, be the monthly rates of Lodging Allowances in lieu of Quarters, Fuel, and Light, commencing from the 1st August, 1896, inclusive:—

I. To Principal Warders, including Clerks, £1 19s. 4d. per month

and to other Warders £1 10s. per month (instead of £1 6s. and £1 1s. 8d. per month respectively as hitherto) in Dublin, Belfast, Cork, Limerick, Londonderry, or Waterford.

II. To Principal Warders, including Clerks, £1 15s. per month, and to other Warders £1 3s. 6d. per month (instead of £1 1s. 8d. and 15s. 2d. per month respectively as hitherto) at all other towns than the six named in No. I. (8,874).

By order,

R. LEWIS,

Clerk in Charge of Accounts.

General Prisons Board, Dublin Castle,  
28th January, 1897.

To the Governors (or other Officers in charge) of H.M. Prisons.

Circular 63, dated 16th November, 1878, and Circular 68, dated 17th December, 1878, are hereby cancelled, and the following Circular is substituted for them.

Circular No. 452.

No subordinate male officer in the Irish Prisons Service is to marry without having previously obtained the permission of the Board.

When any such officer applies for permission to marry, the Governor, in forwarding the application, with his opinion, will supply the following information respecting the officer's intended wife, viz. :—name, address, native county, and character.

Every officer, after marriage, is to produce his certificate of marriage to the Governor, who will report the fact and date of marriage to the Board.

Matrons and Assistant Matrons in the Irish Prisons Service must be either single or widows. While in the Service they are not permitted to marry, and must resign their appointments before doing so (831).

By order,

S. H. DOUGLAS, Secretary.

Circular No. 453.

General Prisons Board, Dublin Castle,  
10th February, 1897.

Referring to Circular No. 167, of 26th June, 1880, the General Prisons Board have to transmit herewith revised scales of travelling and personal allowances which have been sanctioned by the Treasury for Prison Officers, and which supersede the scales issued with Circular No. 167, and also Circular Memo. of 1st September, 1888.

The new scales are to take effect at once (1,288).

By order,

R. LEWIS,

Clerk in Charge of Accounts.

The Sub-accounting Officers of  
the several Prisons.

General Prisons Board, Dublin Castle  
11th March, 1897.

To the Governors (or other Officers in charge) of the several Prisons.

I am directed to forward, for your information and guidance, a copy of new rules with respect to the treatment of juvenile offenders which, having been laid before Parliament for 40 days, and gazetted, are to be put in force at once.

With reference to rule 2, it will be your duty, on the committal of a prisoner under the age of 16, who has been sentenced for one month or upwards, to at once forward to this office his or her name, &c., on the usual form with a view to removal to Mountjoy or Grangegorman Prison.

Rule 4 (b) should be taken into special consideration when the annual demands for library books are being prepared.

Instructions will be issued in a few days as to the physical drill referred to in rule 4 (c).

The new rules should be duly brought under the notice of the Visiting Committee, and the attention of the Chaplain should be specially directed to rule No. 7.

Please acknowledge receipt, and state how many sheets of these rules you will require for posting up in the cells appropriated to juvenile offenders, and in other parts of the prison.

By order,

S. H. DOUGLAS, Secretary.

## SPECIAL RULES FOR JUVENILE OFFENDERS.

By the General Prisons Board for Ireland.

In pursuance of the General Prisons (Ireland) Act, 1877, the General Prisons Board for Ireland hereby make the following Rules with respect to the treatment of Juvenile Offenders:—

1. Every prisoner under the age of 16 shall be classed as a juvenile offender, and shall be treated under the following Rules:—

2. If the sentence be for one month and upwards, he shall be located in a prison in which accommodation is set apart for juvenile offenders. If the sentence be under one month, he shall be retained in the prison to which he has been committed, but be lodged in a part of the prison where he shall be completely separated from the adult prisoners.

3. A juvenile offender shall exercise, receive school instruction, and be seated in chapel, apart from, and, if possible, out of sight of adult prisoners, with whom he shall not, on any occasion, be permitted to come into contact.

4. In the case of a juvenile offender the ordinary prison discipline shall be mitigated in the following manner:—

(a.) He shall not be required to sleep on a plank bed.

(b.) He shall be allowed special library books as well as books of instruction, from the time of his reception and throughout his sentence.

- (c.) He may be employed in association with other juvenile offenders in work-shops, or in out-door work, such as gardening, &c.
- (d.) He shall, as far as possible, be instructed in a trade which may be useful to him on release.
- (e.) He shall, if medically fit, be exercised daily at physical drill in lieu of, or in addition to, walking exercise, with a view to his physical development.

5. A juvenile offender may be allowed by the Visiting Committee to receive extra visits, if, in their opinion, such visits are desirable and calculated to improve his moral welfare and future career.

6. Whenever a child under 14 years of age is committed to prison, the Governor shall report his reception direct to the Under Secretary to the Lord Lieutenant, Dublin Castle, the same day that the child is first received into custody or again received after having been brought before the court on remand or otherwise, unless by the warrant of commitment such child is ordered to be detained in a reformatory or industrial school.

7. It shall be the duty of the Chaplain to devote individual attention and care to the juvenile offenders, and, in co-operation with the visiting committee and the Discharged Prisoners' Aid Society, to make every possible provision for their protection and care on discharge.

Made and executed this 16th day of July, 1896, by the General Prisons Board for Ireland.

J. S. GIBBONS, Chairman.

REGULATIONS made by the LORDS JUSTICES of IRELAND under the PENAL SERVITUDE ACT, 1891, Sections 8 and 9, for the MEASURING and PHOTOGRAPHING of PRISONERS.

1. Subject as hereinafter mentioned, a criminal prisoner may be photographed and measured at any time during his imprisonment.

2. He shall be photographed either in the dress of the prison, or in the dress he wore at the time of his arrest or trial, or in any other dress suitable to his ostensible position and occupation in life.

The photograph to be taken shall include a photograph of the full face, and a photograph of the true profile of the prisoner.

3. The measurements to be taken may include :—

The length and breadth of the head.

The length and breadth of the face.

The length and breadth of the ears.

The length of either foot.

The length of the fingers of either hand.

The length of the cubit and hand, either right or left.

The span of the arms.

The prisoner's height when standing.

The prisoner's height when sitting.

The size and relative position of every scar and distinctive mark upon any part of the body.

The external filament of the fingers and thumbs of both hands to be taken by pressing them, first upon an inked plate, and then upon paper or cardboard, so as to leave a clear print of the skin surface.

4. An untried criminal prisoner shall not be photographed or measured while in prison save by order of the Lord Lieutenant or upon an application in writing signed by an officer of police of not lower rank than District Inspector, and approved by a Justice of the Peace, or in the Metropolitan Police District by the Commissioner or Assistant Commissioner of Police, and all such applications shall set forth that from the character of the offence with which the prisoner is charged, or for other reasons, there are grounds for suspecting that he has been previously convicted, or has been engaged in crime, or that from any other cause his photograph and measurements are required for the purposes of justice.

5. When an untried prisoner, who has not been previously convicted of crime, shall have been photographed and measured under the preceding regulation, if he be discharged by the Magistrate or acquitted upon his trial, all photographs (both negatives and copies), finger print impressions, and records of measurements so taken, shall be forthwith destroyed, or handed over to the prisoner.

## REPORTS BY SUPERIOR OFFICERS OF CONVICT PRISONS.

### MARYBOROUGH CONVICT PRISONS.

#### GOVERNOR'S REPORT.

H. M. Convict Prison, Maryborough,  
May 1st, 1897.

SIR,—I have the honour to submit my report on the condition and incidents of this prison during the year ended 31st March, 1897, as required by Rule 185. The statistical returns for the calendar year have been forwarded to Board's Office on 6th February as directed.

The conduct of the subordinate officers has been very satisfactory. Late Chief Warden John Barrett, after 33 years service, retired on superannuation. As his successor Chief Warden B. Murphy was promoted to that office, and transferred from Mountjoy Prison. He is an intelligent and efficient officer, who performs his duties in a highly satisfactory manner, thereby maintaining discipline amongst officers and prisoners. Consequent on the large increase of labour class prisoners, one principal warden and 6 wardens were transferred from Mountjoy to the staff of this prison, and 3 temporary wardens have been appointed as an armed guard.

There were 58 convicts in custody on 1st January, 1896:—received during the year, 80; removed to Mountjoy Prison, 7; to Dundrum Asylum, 2; discharged on licence, 36; and on commutation of sentence, 1; remaining in custody on 31st December, 92.

Of those in custody on 1st January, 37 were invalids; 11 Intermediate Class; and 10 ordinary labour class. Remaining in custody on 31st December, 26 invalids; 16 Intermediate, and 50 ordinary labour class.

It is satisfactory to note that the number of invalid convicts is becoming a fast diminishing quantity. There were 51 invalids in custody on 1st of October, 1892, when I took charge of this prison. There are at present 25, or less than one-half. This diminution in the number of invalids afforded much needed accommodation for a vastly increased labour class when required in consequence of the acquisition of a farm of 34 acres, of which mention was made in last annual report. This farm has afforded the means for the most salutary and useful employment for about forty convicts daily of the Intermediate Class, and also ordinary labourers selected for their general suitability, their good conduct and their fitness for such employment.

It is gratifying to be able to report that so far at least the experiment of employing convicts in the cultivation of land has not been attended with any irregularity, but has proved eminently satisfactory. At no period within the forty years of my experience have I seen so great an amount of useful and enduring work done by a corresponding number of convicts.

The prisoners have been employed building a wall round the farm, sinking drains, reclaiming the land, bringing it into a state of productive cultivation, and preparing it for crops.

As possession was only obtained on 31st March last year, it was not possible to till more than about two acres, which were sown under

potatoes, and although the conditions as regards timely tilling were very unfavourable yet the crop was good and abundant, especially as regards the quality known as "Beauties of Bote," which were fully three times more prolific than Champion, sown side by side. I again sprayed the potatoes last year with a mixture of sulphate of copper and lime, with very favourable results. I had no blight either whilst the potatoes were growing or on the tubers afterwards. As already stated, I was only able to have two acres tilled last year, a portion was under meadow, and remainder set for grazing, the final results being a saving of about £80 on the year's transactions, but not including any of the expenses in connection with purchase, or the building of the wall. The draining of the farm has progressed most satisfactorily, and this year a very large proportion of it will be under crops of potatoes and vegetables. I have reason to believe that profit was not a prevailing force by which the Board was influenced in acquiring this farm, but rather to afford healthful, useful and educational employment for convicts, enabling them to cultivate habits of industry, and to acquire a knowledge of work, by which they can, if so disposed, live honestly after their discharge from prison, which is the most difficult and critical period in the life of the criminal. I believe that these objects will be attended with a large measure of success, for it is certain that even city reared criminals take a very great interest in the draining, cultivation, and cropping of the land, and (as one of the Chaplains remarks in his report) the quantity and quality of the work produced is the surprise of the inhabitants of the locality.

The necessary repairs to prison buildings have been maintained.

The conduct of the prisoners in the Intermediate Class has been most satisfactory. Previous to their discharge I communicate with the clergymen of the districts in which they are respectively about to reside, requesting that everything convenient might be done in furtherance of their desire to obtain employment and the means of living honestly; these efforts I think are laudable, are in accordance with the desire of the Board, and are instrumental to good.

The invalid prisoners when not totally incapacitated, and when fit for any work, have been suitably employed at shoemaking, tailoring, cooking, cleaning prison, and tilling garden inside the prison walls. Their conduct has been very good, the cases of misconduct being very few and slight.

The prisoners of the invalid class are each and all suffering from some form of disease, yet their health has been maintained at a high standard; one death has occurred in this class from syncope, or failure of heart action, since the statistical reports have been forwarded.

There have been no escapes, nor attempts to escape, during the year.

The Chaplains have been zealous and attentive, willingly co-operating in every effort for the improvement and for the reformation of the convicts whilst in prison, and their welfare after discharge.

The morning and evening schools continue to be conducted as in former years with very satisfactory results. I think it quite astonishing to see the progress made by some prisoners of mature years who may have been totally illiterate and who after a short time become able to write their own letters. This, I consider is principally attributable to absence of distraction. The library has been fully availed of, and the books provided annually are much appreciated.

The health of the prisoners has received zealous and unflinching attention from the Resident and Visiting Medical Officer.

I certify that the Rules laid down for the government of the prison

have been complied with to the best of my knowledge and belief, except in such cases as have been specially reported to the Board.

The Visiting Committee visited the prison on 8th April, 13th May, 10th June, 8th July, 12th August, 9th September, 14th October, 11th November, 9th December, 1896; 13th January, 10th February, and 10th March, 1897. I take the liberty to acknowledge with feelings of gratitude the valuable assistance and advice always willingly given by them in the interests of the prison and for the benefit of the prisoners whenever considered desirable.

I have the honour to be, Sir,

Your obedient servant,

JOHN CONDON, Governor.

To the Chairman,  
General Prisons Board,  
Dublin Castle.

### PROTESTANT EPISCOPALIAN CHAPLAIN'S REPORT.

Portrane, Maryborough,  
30th April, 1897.

SIR,—The services on the Lord's Day were during the last twelve months very regularly attended by all the Protestant prisoners. I have for some time visited the men in their cells instead of holding a service on Wednesdays. Some prisoners objected to having to attend these week-day services, and as all who were registered as members of the Church of Ireland were obliged to attend them, some in consequence applied for leave to change their religion, most to join the Presbyterian Church, one, Convict F, first joined the Presbyterians, and on re-committal to prison, after a very short absence, he had himself registered a Jew.

The attendance of the prisoners under my care at the evening school has been satisfactory. To men whose education was altogether or greatly neglected, this school is a considerable advantage.

I received during the year, in the discharge of my duties, from the intern officers, every assistance in their power to render.

I have the honour to be, Sir,

Your obedient servant,

EDMUND L. EVES,

Church of Ireland Chaplain.

The Chairman, General Prisons Board.

### ROMAN CATHOLIC CHAPLAIN'S REPORT.

Maryboro',  
12th April, 1897.

SIR,—I have much pleasure in giving a satisfactory report of the Maryboro' Prison for the past year. The chaplains have, I think, received fewer complaints from the prisoners of their treatment than

during any other year since my arrival in Maryboro'. I think, also, that notwithstanding the great increase in numbers the discipline has been equally good. The progress in the educational department has also been satisfactory. I am very proud that my suggestion (often made) about acquiring some land adjoining the prison has been carried out. It will, I hope, be of the greatest advantage to the prisoners, in body and mind, to have them working on this farm in place of being enclosed within the dismal walls of the prison. The officials are pushing on the work with great energy, and it is admired by every passer-by.

I remain, your most obedient servant,

A. PHELAN, P.P.

To the Chairman of Prisons Board.

### MEDICAL OFFICERS' REPORT.

H. M. Convict Prison, Maryboro'

17th April, 1897.

SIR,—We have the honour to submit our annual report on the health of the officers and prisoners, and the sanitary condition of this prison for the year ending the 31st March, 1897.

During the year no serious illness occurred to any member of the staff. Chief Warder Barrett, found to be physically unfit for duty—owing to defective vision—was retired on pension.

We have to record but one death (which occurred since furnishing our yearly statistics) that of an invalid class prisoner.

Influenza was prevalent during January and February this year, but it was of a mild character, leaving no ill effects after it.

The labour class prisoners maintained throughout the year a high standard of health. This, no doubt, was largely due to their employment—farm work—being healthy, and particularly suitable to the constitution of the average convict.

The sanitary condition of the prison and buildings continues satisfactory; the water supply good in quality, and abundant.

Again we have the pleasure of placing on record our appreciation of the facilities and support afforded to us at all times in the discharge of our duties by the Governor and the staff under his control.

We have the honour to be, Sir,

Your obedient servants,

J. I. KINSELLA,

Physician, Surgeon, and L.M., Resident Medical Officer.

D. B. JACOB, M.D.,

Consulting and Visiting Physician.

## MOUNTJOY MALE CONVICT PRISON.

## GOVERNOR'S REPORT.

Mountjoy Prison,  
April, 1897.

SIR,—I have the honour to report for the year ended 31st March, 1897, on the convict portion of Mountjoy Prison.

The subordinate officers have been generally well conducted, attentive, and diligent; cases of negligence or inattention to rules or duties, on their part, have been few and not serious. Only two cases occurred during the year that were not within my powers to deal with, and these were disposed of by the Board. The Chief and Principal Warders have performed their duties zealously and judiciously. The changes on the staff during the year were as follows:—A Principal Warden and a first-class Warden were discharged on pension, and others promoted in their stead, one Principal Warden was promoted to be Chief Warden at Maryboro' Prison. One Principal Warden and six Warders were removed to Maryboro' Prison, one Warden was transferred to the local service at his own request, and four Warders were transferred from the local to the convict staff.

The convicts have, in general, been well-conducted and industrious, and many of them have quickly become proficient at trades and occupations of which they previously had no knowledge. Punishments for prison offences have not been many, and it has not been necessary even to reprimand the great majority of the convicts in custody during the year. The rules are fully explained to all on entering the prison, and the vast majority do not need pressure or compulsion to ensure compliance.

There were 302 convicts in custody at Mountjoy Prison on 1st April, 1896, 68 were received during the year under new sentences, 30 were received on forfeiture or revocation of licences, one was returned from the Criminal Asylum, and seven from Maryboro' Prison. There were 96 convicts removed to Maryboro' Prison during the year (83 of these were for employment on a newly acquired farm, and they were specially selected as regards conduct, disposition, capacity for outdoor labour, and suitability for employment with comparative safety outside the prison), four were removed to Cork Male Prison for work there, six to the Criminal Asylum, 88 were released on licence, and four discharged absolutely, leaving only 210 in custody here on the 31st March, 1897.

The greater part of the outdoor labour for convicts at Mountjoy Prison ceased on the completion of twenty-three houses outside the prison for married warders, at the close of April, 1896, but this caused no inconvenience, as the subsequent removals to Maryboro' Prison disposed of all those not required for the necessary indoor trades, gardening, cleaning, and the maintenance and repairs of the extensive prison buildings comprising the convict and local prisons, workshops, &c., and the numerous residential buildings attached thereto, sixty of which are outside the prison walls. All have been kept in good repair by convict labour.

Uniform and boots for the staffs of most of the Irish prisons continue to be made by the convicts at Mountjoy, as well as clothing and foot wear for prisoners in nearly all Irish prisons, carpentry-work, smith-work, tin-work, coopering, &c., are also done here for other prisons, as

required. Convicts incapable of learning trades, or of becoming proficient at them, are employed at mat-making and wood-chopping, chiefly for public departments. Baking bread for all the Dublin prisons continues to be done advantageously at Mountjoy by convict labour.

There has not been any escape or attempt to escape during the year.

The Medical Officer and his assistant have been unremitting in their attention to the health of both officers and prisoners.

The Chaplains have attended regularly, and all have shown much anxiety for the welfare of the convicts after discharge, as well as for their spiritual interests and reformation while in prison.

The Schoolmasters have been painstaking and attentive, and the school records show satisfactory results. The Schoolmasters also act as librarians for the convicts' library, and they change books daily during the dinner hour, as required.

I certify that the rules laid down for the government of the prison have been complied with, except in such cases as have been reported to or brought to the notice of the General Prisons Board.

I have the honour to be, Sir,

Your most obedient servant,

GEO. SHEEHAN, Governor.

The Chairman, General Prisons Board.

#### PROTESTANT EPISCOPALIAN CHAPLAIN'S REPORT.

H. M. Prison, Mountjoy,  
April 23, 1897.

SIR,—In submitting my Report for the past twelve months, I am happy to be able to speak very favourably of those committed to my charge. There has been no serious infringement of discipline, while the conduct at Divine Service, and during religious instruction, both on Sundays and week days, has been good.

I am glad to find that some of those who have entered prison, quite, or nearly so, illiterate, become, by diligence and attention at the school, able to read and write, and that they acquire a certain amount of knowledge in other branches of secular education. Such proficiency offers valuable opportunities for the perusal of the Sacred Scriptures and books of devotion furnished to them in their cells.

We have had scarcely any sickness during the year; but my visits to the fine hospital confirm previous experience in regard of the important factor which the infirmary supplies towards the working of the gaol.

I desire thankfully to record the unremitting exertions of Mr. H. P. Goodbody, the Honorary Secretary of our Prisoner's Aid Society, and also to acknowledge my obligations to the Governor and the entire staff for ready co-operation in the discharge of my responsible duties.

I have the honour, Sir, to remain

Your obedient servant,

JOHN H. MACMAHON, M.A., LL.D.,

Protestant Chaplain.

To the Chairman of the General Prisons Board.

**ROMAN CATHOLIC CHAPLAINS' REPORT.**

Mountjoy Prison, June, 1897.

SIR,—In submitting our report for the year ended March, 1897, it gives us much pleasure to bear testimony to the satisfactory condition of the prisoners under our charge. They were, during the year, very attentive to their various religious duties. Whilst in the Church their demeanour was all that could be desired, and they approached the sacraments regularly, with a few exceptions.

In our daily intercourse with them through the prison, we invariably found them cheerful and agreeable.

The general discipline of the prison was, we are of opinion, excellent in every department.

We beg to thank the Governor, the Medical Officer, and the other officials of the prison, for their kindness to us on all occasions, and for the assistance they gave us in the discharge of our duties.

We have the honour to remain, Sir, your obedient servants,

M. WALSH, R.C.C.

T. O'DONNELL, Asst. R.C.C.

**PRESBYTERIAN CHAPLAIN'S REPORT.**

Mountjoy Convict Prison,

April 14, 1897.

SIR,—I can speak in terms of the highest praise of the conduct of the prisoners under my care in relation to their respectful attention to religious instruction. Their general conduct has also been exceptionally good, cases of punishment having been rare throughout the year. Two years ago I thought it advisable to administer the Sacrament of the Lord's Supper to those prisoners who desired it, and have done so twice a year since. It had not been done heretofore, I believe, and those who joined in the celebration seemed to be helped and benefited. The number of Presbyterian convicts is rapidly decreasing year by year, and there are fewer now, I believe, than at any past time.

Faithfully,

J. C. JOHNSTON,

Presbyterian Chaplain.

To the Chairman of H. M.'s General Prisons Board.

**MEDICAL OFFICER'S REPORT.**

Mountjoy Convict Prison,  
31st March, 1897.

SIR,—I have the honour to submit the annual report on the health of the officers and convicts, and on the general sanitary state of this prison with the usual medical statistics for the year ended 31st December last.

During the year there were thirty-eight warders treated in hospital—chiefly for influenza, bronchitis, rheumatism, and two cases of typhoid fever. One principal warder and one first-class warder were discharged the service on medical grounds. There was no death.

There were seventeen convicts in hospital on the 1st January, 1896, and 140 were admitted during the year. The chief ailments were influenza, bronchitis, dyspepsia, rheumatism, and diarrhoea. Of those in hospital:—eight were transferred to the invalid prison, three were removed to the Criminal Lunatic Asylum, one was discharged from prison on medical grounds, and one died from pneumonia.

Nothing occurred during the year demanding any special reference. The health of the officers and prisoners was generally good, and the sanitary arrangements of the prison were carefully attended to.

I have the honour to be, Sir,  
Your obedient servant,  
P. O'KEEFE, M.D.,  
Medical Officer.

The Chairman, General Prisons Board,  
Dublin Castle.

**GRANGEGORMAN FEMALE CONVICT PRISON.****SUPERINTENDENT'S REPORT.**

H. M. Prison, Grangegorman,  
1st May, 1897.

SIR,—I have the honour to submit my annual report on the Convict Prison for the year ended 31st March, 1897, with statistical returns.

The subordinate officers have been well conducted and attentive to their duties during the year.

The prisoners' conduct has been most satisfactory, the number punished for offences against prison discipline, being exceptionally small.

The convicts are principally employed in laundry work, knitting and sewing, also whitewashing, painting, and gardening. Three have been constantly employed in the kitchen, cooking for convict and local prisoners.

The school has been conducted, as usual, with most satisfactory results.

I certify that the Rules laid down for the government of the prison have been adhered to, except in such cases as have been brought to the notice of the General Prisons Board.

I have the honour to be, Sir,  
Your obedient servant,  
CATHERINE J. MCCARTHY,  
Superintendent.

The Chairman, General Prisons Board,  
Dublin Castle.

## PROTESTANT EPISCOPALIAN CHAPLAIN'S REPORT.

H. M. Convict Prison, Grangegorman,  
31st May, 1897.

SIR,—I have no change to report in regard to the Convicts under my charge; two of them will be discharged during the year. One is unusually well educated, and very intelligent, the others are of a low type, and extremely ignorant—one of these, however, has made persevering efforts in learning to read.

The discipline of the prison is in my opinion well maintained, and I have at all times received from the officers consideration and help in carrying out my duties as Chaplain.

I am yours faithfully,

HENRY HOGAN,  
Chaplain.

To the Chairman of the  
General Prisons Board.

## ROMAN CATHOLIC CHAPLAIN'S REPORT.

Grangegorman Prison,  
June 2nd, 1897.

SIR,—I have the honour to submit my report for the year ended March 31st.

The prisoners have been well conducted, and with few exceptions very attentive to their religious duties.

I beg to repeat the view I expressed in my report of last year as to the necessity of a five years' sentence for *habitual offenders*—that is, for those women who after five or six short convictions manifest an inward propensity for crime; and I beg again to refer to the statistics read at the Royal Commission of 1883 in reference to the amount of good effected among such prisoners in Golden Bridge Refuge, where they were allowed to remain in comparative freedom for the last sixteen months of their sentence.

I wish also to point out that prisoners (especially females) discharged from Irish prisons are in a very different position from prisoners discharged in England. In England it is by no means difficult for a well-conducted woman on discharge to procure a respectable situation: in Ireland it is practically an impossibility.

I must add too, that in my opinion, a sentence of five years for habitual female offenders (as I have defined an "habitual offender") in Ireland is the most merciful, as by no shorter sentence are our prisoners enabled, no matter how great may be their industry or how good their conduct, to earn as much as would be sufficient to take them out of the country.

I have the honour to be, Sir,

Your obedient servant,

J. ANDERSON,  
R. C. Chaplain.

The Chairman,  
The General Prisons Board.

**PRESBYTERIAN CHAPLAIN'S REPORT.**

Grangegorman Prison,  
15/4/'97.

Sir,—There is only one Presbyterian female convict. She had passed, I understand, a considerable portion of her life in a lunatic asylum before her committal to prison. She is very tractable and quiet as a rule ; but her mind seems still unsettled.

Faithfully,

J. C. JOHNSTON  
Presbyterian Chaplain.

The Chairman,  
H. M.'s Prisons Board.

**MEDICAL OFFICER'S REPORT.**

H. M. Prison, Grangegorman,  
3rd June, 1897.

Sir,—I have the honour to lay before you my Report for the year ended 31st March, 1897, together with the usual medical statistics.

The absence of mortality and the relatively small number of cases of serious illness tend to show that the sanitary condition of the prison leaves nothing to be desired.

I have the honour to be, Sir,

Your obedient servant,

R. G. DOWDALL, M.B.
